Bogotá D.C - Colombia

PROFILE

He is a creative and committed professional with a keen eye for detail. Boasting approximately four years of experience in software development, he has honed his skills in web development and UI/UX design principles. Recently, he has been recognized with awards at his current company for his exceptional work ethic, outstanding project outcomes, and innovative contributions to software solutions. Fluent in English, he holds certifications in SCRUM and agile methodologies, showcasing his commitment to efficient and flexible project management. As an Intermediate React Developer at Unosquare SAS since February 2023, he has excelled as a front-end developer, contributing significantly to projects in collaboration with Harvard Business Publishing.

EXPERIENCE

Software Developer, Feb 2023 - Present

Unosquare, Bogotá D.C. Colombia

unosquare.com

- He is collaborating with Harvard University on maintaining and adapting their current websites to ensure universal accessibility.
- He has delivered a series of tech talks on emerging JavaScript frameworks and the critical role of programming with robust accessibility practices.
- He plans to integrate his capstone project into Harvard's digital environment, aiming to enhance website accessibility for deaf individuals, ensuring they can fully comprehend the site's content.

Software Developer, Dec 2021 - Feb 2023

Howdy, Bogotá D.C. Colombia

howdy.com

- Utilized JavaScript for web development, employing React.js for front-end design and Node.js for back-end services.
- Participated in all the SCRUM events of the development team.
- He was a part of a development team composed of around 80 developers around the globe.
- Combined his work responsibilities with his university and soccer practices which has given him even more discipline and an organized mind.
- Developed a Chrome extension to scrap information from the Google Flights website and use it to inject it into the client's databases.

Software Developer, Nov 2020 - Dec 2021

Teleperformance SAS, Bogota D.C. Colombia

teleperformance.com

- Utilized JavaScript for web development, employing React.js for front-end design and Node.js for back-end services.
- Became the main UI/UX designer and frontend developer of the development team after two months working for TP.
- He was hired to develop RPA (Robot Process Automation).

Fullstack Developer, Jun 2020 - Nov 2020

Consorcio Delgado Murcia, Bogotá D.C. Colombia

consorciodelgadomurcia.com

- Built, developed, and implemented a web page responsive and fully informative.
- Responsible for developing the designing the product using mockup tools such as Photoshop and Adobe XD.

Frontend Developer, Jan 2020 - Jun 2020

Terra Engineering, Bogotá D.C. Colombia

- Built, developed, and implemented a web page responsive and fully informative.
- Responsible for developing the designing the product using mockup tools such as Photoshop and Adobe XD.
